CAREER OBJECTIVE

Motivated and detail-oriented Computer Science (Data Science) student with a strong academic record and an interest in Data Analytics, Data Science, Software Development, and Finance & Accounting. Skilled in Python, SQL, Excel, C, Java, Cloud Computing, and IoT. Seeking an internship to apply technical knowledge, enhance skills, and contribute to real-world projects.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, Java
- **Database & Analytics:** SQL, Microsoft Excel
- **IoT Tools:** NodeMCU, Arduino, Blynk
- **Core Areas:** Data Analytics, Data Science, Cloud Computing, IoT
- **Soft Skills:** Problem Solving, Teamwork, Communication

PROJECTS

• **Stock Price Prediction** – Developed a machine learning model using Python to predict stock prices from historical data.

• **Water Leakage Detection** – Built an IoT-based water leakage detection system using NodeMCU, Arduino, and Blynk.

• **Gas Leakage Detection** – Designed an IoT-based gas leakage monitoring and alert system using NodeMCU, Arduino, and Blynk.

CERTIFICATIONS

- Cloud Computing
- Unix and Linux OS Fundamentals
- Python Programming
- Data Structures and Algorithms

ACHIEVEMENTS & ACTIVITIES

- Actively participated in Hackathons.
- Participated in technical events related to Data Science and IoT.
